

I Dreamed I Stopped Dreaming

Sam Phillips

I dreamed I stopped dreaming
And singing and I was alone with you
Moving and watching, we fell way beyond words

And a dream under stars
Under standing beneath solid ground
Above all time and light . . .

Technical flash, evacuated bodies, and thrill-gones
Cavities chase us and I pull you down hard and long

And a dream under stars
Under standing beneath solid ground
Above all time and light . . .

Think you've got too much to lose
To feel what you feel for me
What you're afraid you'll lose is already gone

And a dream under stars
Under standing beneath solid ground
Above all time and light . . .
