Ascension

Sam Roberts

They say we're too far gone
I don't believe that's true
They say keep on keepin' on
I say what else can I do?

So don't you stop me from crying
I'm only crying for you
I got no skin in the game anymore
Only want you to come through

It's never too late to turn around
You're never too young to try
They're burning bridges into the ground
And all we're asking is why

We're going to steal victory
From the jaws of defeat
They say we're playing with fire
I say we don't mind the heat

We're taking over the airwaves
We got a song you should learn
You're busy digging a shallow grave
'Cause you got money to burn

It's never too late to turn around
You're never too young to try
They're burning bridges into the ground
And all we're asking is why

It's never too late to turn around
You're never too old to try
We'll take the fight to the underground
We'll take this song to the sky

We know something you will never know
We got no money but we got soul
This is situation critical
Can't hold on forever, just let it go
You got to let it go

It's never too late to turn around
You're never too young to try
They're burning bridges into the ground
And all we're asking is why

It's never too late to turn around
You're never too old to try
We'll take the fight to the underground
We'll take this song to the sky

We know something you will never know
We got no money but we got soul
This is situation critical
Can't hold on forever, just let it go
You got to let it go
