

# Cascades

Sam Roberts

Take me  
Take me as you find me  
With lonely days behind me  
Cut the ties that bind me  
Every night I get home  
Open every window  
Light the fuse and get stoned  
All alone  
All heart and skin and bones

Then Monday turns into a Friday  
Turns into a one way ticket to this heartache  
Will I ever stop cascading like a raindrop  
Caught up in a waterfall  
Dragging us all  
Into a river of tears

I've been sliding like a shipwreck  
Playing with a half deck  
Bouncing like a bad cheque  
Tryin' to shake this bum rap  
This vertigo, this mousetrap  
Crying like an alley cat  
Twisting words and dancing like a diplomat

I need you  
I need you

On that crowded boulevard  
We got drunk and fell apart  
Two hearts in the after dark  
Shadows in the parking lot  
Next thing I know is Monday turns into a Friday  
Turns into a one way ticket to this heartache  
Will I ever stop cascading like a raindrop  
Caught up in a waterfall  
Dragging us all  
Into a river of tears

Please tell me  
Where did I go  
Where did I go wrong  
Tell me  
Where did I go  
Where did I go wrong

Ooh I need you  
Baby in the worst way  
Even on my best day  
I can't think straight  
I came here in the name of Love  
Not of God and guns and such  
All the things that cost too much  
I just want to feel your touch  
Cause baby I need you  
I need you

Cause baby I need you  
I need you
