

# Roll with the Spirits

Sam Roberts

I'm a medicine man and a prophet  
I got a bag full of dreams in my pocket  
I see your boat, but I don't wanna rock it  
Free your mind, let me help you unlock it  
Just the sound of the times we live in  
To be taking more than we're given  
Sit back let your conscience go swimming  
Just the sound of the times we live in

We comin' alive, just step inside  
Take your medicine  
It's all in the mind, just a matter of time  
'Till you're on your feet again  
We're making the grade, yeah we got it made  
No need to be born again  
We're comin' alive, just step inside  
Take your medicine

I was rolling with the fooled in a jacket  
I talk tough, but I know how to back it  
I always got mats thrown in my racket  
See the future 'cause I always had an act for it  
Get you coming alive on the weekends  
Where the mystery always deepens  
I'll get you back online with your feelings  
Get you living again on the weekends

We comin' alive, just step inside  
Take your medicine  
It's all in the mind, just a matter of time  
'Till you're on your feet again  
We're making the grade, yeah we got it made  
No need to be born again  
We're comin' alive, just step inside  
Take your medicine

(We comin' alive, we comin' alive, we comin' alive)  
(Just step inside, just step inside, just step inside)  
(We comin' alive, we comin' alive, we comin' alive)  
(Just take your medicine, just take your medicine, just take your medicine)  
(Take your medicine, take your medicine, take your medicine)

You got a paper bag soul, let me fill it  
You got legs, but you rolling with the spirits  
You got a heart, won't you let me get near it?  
You got magic on your mind, don't you fear it?  
When they tell you the sky's the limit  
It's your piece of the pie, so live it  
And if the future's too bright, I can dim it  
'Cause they tell you the sky's the limit

We comin' alive, just step inside  
Take your medicine  
It's all in the mind, just a matter of time  
'Till you're on your feet again  
We're making the grade, yeah we got it made  
No need to be born again

We're comin' alive, just step inside  
Take your medicine
