

TerraForm

Sam Roberts

Oooh
I've come to take you home
I built it stone by stone
So come on
Hey
We burned the old one down
Oh, it was hell bound
Scattered the ashes to the ground

Ooh the world is ours
Ooh the world is ours
Wait for the seeds to flour
We're starting over, come on

Take flight
To your new life
Don't cry
It's alright

There goes the heartache
There go your mistakes
They're gonna fade away
They're gonna fade away

Ooh the world is ours
Ooh the world is ours
Wait for the seeds to flower
We're starting over, come on

Ooh the world is ours
Ooh the world is ours
Wait for the seeds to flower
We're starting over, come on

Take flight
To your new life
Don't cry
It's alright
Starting over [x10]

Starting over
(We're starting over)
Starting over
(We're starting over)

(We're starting over) [x8]
