

The House Inside

Sam Roberts

7 O'clock day pours into the dark
Gonna sing the angels and swim with the sharks
Money is tight but the kids are alright
You walk out of the door and into the light

Pistols at dawn, lines are already drawn
You shoot for the heart but you waited too long
Cover your tracks then you slip through the cracks
You demand satisfaction but the moment is gone

Baby don't run, baby don't cry
We need to learn the house is inside
We can go far and we can go wide
Always return
The house is inside

Pages turn over and over
Days going one by one
Pages turn over and over
Days going one by one

The view from the street, you'd never guess
That inside it's a chess match that nobody wins
Sound the retreat, it's for the best
Gonna land on your feet, let the healing begin

Baby don't run, baby don't cry
We need to learn the house is inside
We can go far and we can go wide
Always return
The house is inside
Give me your heart, I've given you mine
We knew from the start the house is inside
Never apart, in body and mind
Don't look too far, the house is inside

You'll never walk alone
You're never on your own
We'll raise it from the dust
The house inside of us
Four walls just ain't enough
To hold on to a love
It has to fill you up
I'm never giving up on you

I can forgive if you can forget
Just live and let live with no regrets
This is our song, there's no singing it wrong
It's all that we have and it's where we belong

Pages turn over and over
Days going one by one
Pages turn over and over
Days going one by one

Baby don't run, baby don't cry
We need to learn the house is inside

We can go far and we can go wide
Always return
The house is inside
Give me your heart, I've given you mine
We knew from the start the house is inside
Never apart, in body and mind
Don't look too far, the house is inside
