

# Burn It Down

Sam Ryder

I keep my heart on a short leash  
I keep my feet on the floor  
And it might come back to haunt me, baby  
But I'm not afraid anymore

From you there's no escaping  
For you, I feel it all  
When my world needed saving  
We watched the ashes fall

Ooh, what you do to me now  
I'm a fire that you can't put out  
Why don't you come to my house?  
We could burn this whole place down  
'Cause your kiss could kill  
And it makes me wild  
Come on, light me up  
In the darkest hours  
Ooh, what you do to me now  
The way that you love me  
Gonna burn this whole place down  
Burn it down

There ain't no water for drinking  
Just tangled up here with you  
I'm getting these revelations, baby  
Every breath, every move

From you there's no escaping  
For you, I feel it all  
When my world needed saving  
We watched the ashes fall

Ooh, what you do to me now  
I'm a fire that you can't put out  
Why don't you come to my house?  
We could burn this whole place down  
'Cause your kiss could kill  
And it makes me wild  
Come on, light me up  
In the darkest hours  
Ooh, what you do to me now  
The way that you love me  
Gonna burn this whole place down  
Burn it down  
Burn this whole place down  
Burn it down, yeah

Ooh, what you do to me now  
I'm a fire that you can't put out  
Why don't you come to my house?  
We could burn this whole place down  
'Cause your kiss could kill  
And it makes me wild  
Come on, light me up  
In the darkest hours  
Ooh, what you do to me now

The way that you love me  
Gonna burn this whole place down  
Burn it down  
Burn it down
