

Put A Light On Me

Sam Ryder

I toss and turn when I sleep at night
Too many things on my mind
I can't change and I see
Shadows on the walls of the cave tonight
Gimme fire, help me rewire my primitive mind

Seems like the blind is leading the blind
Help me to revive
Quiet these voices that dim my eyes

Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me?
Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me? Yeah

Do I believe in the things I do?
Am I the driver or passenger sitting next to you?
Don't think that I wanna know the truth
Just let this fire burn higher
Up in the back of my mind

Seems like the blind is leading the blind
Help me to revive
Quiet these voices that dim my eyes

Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me? Whoa
Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me? Yeah

(Ooh, yeah) Alright
(Ooh, yeah) Alright
(Ooh, yeah) Alright
(Ooh, yeah)

Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me? (Whoa)
Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me?

Put a light on me
Anything to make me believe
That it's not so dark
In the deep of my heart
Oh, will you put a light on me? Yeah
