

# Somebody

Sam Ryder

Do, do-do, do-do  
Do-do-do-do-do, do-do-do-do  
Do, do-do, do-do  
Do-do-do-do-do, do-do-do-do

You bring me summer every weekend  
Like a rooftop in LA  
When it heats up in the evenin'  
You cool me off like lemonade  
So don't go changin' like the seasons  
'Cause you're perfect in every way  
Baby, you got a love that's world leading  
If you were running, I'd lead your campaign (Hey)

Wake me up  
You're the caffeine in my coffee cup  
And like a shootin' star, you light me up  
You're amazing

'Cause we all need somebody  
Even lonely hearts need somebody  
So before this love leaves your body  
Give it away  
So if you've got somebody  
Let 'em know that they're your somebody  
Little love never hurt nobody, hey  
So you use your light and shine it like crazy  
We got one life, let's make it amazin'  
I love you, babe, you know that ain't changin'  
You got, you got somebody who loves ya  
You got, you got somebody who loves ya (Do, do-do, do-do)

Do, do-do, do-do  
Do-do-do-do-do, do-do-do-do  
Do, do-do, do-do  
Do-do-do-do-do, do-do-do-do

Baby, you and me, we got chemistry  
Call it alchemy, call it what you want  
I don't know what I believe in  
But what a time to be livin' and breathin'  
And I got a feelin' that we're here for the same thing

Wake me up  
You're the caffeine in my coffee cup  
And like a shootin' star, you light me up  
You're amazing

'Cause we all need somebody  
Even lonely hearts need somebody  
So before this love leaves your body  
Give it away, yeah  
So if you've got somebody  
Let 'em know that they're your somebody  
Little love never hurt nobody, nobody  
So you use your light and shine it like crazy  
We got one life, let's make it amazin'

I love you, babe, you know that ain't changin'  
You got, you got somebody who loves ya  
You got, you got somebody who love-

(A little love never hurt nobody)  
You got, you got somebody who loves ya  
You got, you got somebody who loves ya  
(We all need somebody)  
You got, you got somebody who loves ya

You wake me up  
You're the caffeine in my coffee cup  
And like a shootin' star, you light me up  
Amazing  
You're amazing

'Cause we all need somebody  
Even lonely hearts need somebody  
So before this love leaves your body  
Give it away ('Way, 'way, 'way)  
So if you've got somebody  
Let 'em know that they're your somebody  
Little love never hurt nobody, nobody  
So you use your light and shine it like crazy  
We got one life, let's make it amazin'  
I love you, babe, you know that ain't changin'  
You got, you got somebody who loves ya  
You got, you got somebody who loves ya
