

# Already Mine

Sam Short

Baby, I'm already mine

Kinda feel like I give too much  
But I know that story's old  
Kinda feel like you're over us  
But you won't be the first one to fold

Kinda feel like you're looking  
For something else  
If you're tryna run from this, go walk yourself out cause  
Cause I'm not gonna just stick around

So baby if you're really over being mine  
I'll give you a minute to say your goodbyes  
I don't even need to hear a reason why  
Cause who's got the...

Time! to waste on a lover  
Who can't love you, oh I'll find another  
(It's fine!) Not meant for each other  
Oh don't you worry babe I'll recover

I don't need your pity  
I don't your help  
I don't need nobody oh  
Cause babe I got myself  
(It's fine!) So say your goodbyes  
Cause baby I'm already mine

Baby I'm stronger  
Than you made me out to be  
(Than you made me out to be)  
I learned the hard way  
I don't need no one but me

So baby if you really don't think you can stay  
You should pack your things and just get on your way  
I'm good with you being the one that got away  
Cause who's got the...

Time! to waste on a lover  
Who can't love you, oh I'll find another  
(It's fine!) Not meant for each other  
Oh don't you worry babe I'll recover

I don't need your pity  
I don't your help  
I don't need nobody oh  
Cause babe I got myself  
(It's fine!) So say your goodbyes  
Cause baby I'm already mine
