

## Faulty Writing

Sam Short

Oh, doctor, doctor, there's an error in my system  
Medication couldn't fix it like you thought  
Why do I bother when my therapist just left me?  
Said I'm too far gone to help, so what you got?

Am I not human? Did I just get left behind by evolution?  
Blew my fuse and now I'm useless? Tell me now

Is it really living if I'm just surviving?  
Is there something missing if I need a pill to fight it?  
I know, I know it's crazy to say this  
I don't, I don't, I don't even mean it  
Blame it on the science  
Oh, I've just got faulty wiring

Oh, doctor, doctor, there's a monster under my bed  
I've been breaking out of cold sweats every night  
It's getting stronger, all the walls, they're paper-thin  
But I feel I'm closing in, can you make it right?

Is it really living if I'm just surviving? (Surviving)  
Is there something missing if I need a pill to fight it?  
I know, I know it's crazy to say this  
I don't, I don't, I don't even mean it  
Blame it on the science  
Oh, I've just got faulty wiring

Ooh-ooh, ooh-ooh  
Oh-oh-oh  
Oh-oh-oh, oh-oh

Blame it on the science  
Oh, I've just got faulty wiring
