

# Blind Eye

Sam Smith

I hear you call for me with a million eyes  
You take us gospel but I don't deny  
But you won't succeed, cause I've been tipped off  
I just turned a blind eye for way too long  
Ooh, ooh, ooh, ooh  
People like me don't pick a fight with you  
But underneath the bridge we gather two by two  
If we don't succeed, well at least we tried  
Turned around to face you with a one blind eye  
I'm gonna carry you over (carry you over)  
Pull you in closer (pull you in closer)  
One by one, we marry the night  
Sitting on the same boat on different sides  
Staring at each other with our one blind eye  
Ooh, ooh  
One by one (ooh), we marry the night  
(ooh) sitting on the same boat (ooh) on different sides  
Staring at each other with our one blind eye
