

Breaking Hearts

Sam Smith

You went cold
You got caught
You exceeded my darkest thoughts
A poisoned chalice
Thorn in my side
I'm so numb
From your lies

While you were busy breaking hearts
I was busy breaking
I was giving all my love
You were busy taking
Summer haze of summer wine reminded me of better times
But I let you in my heart
So now it's busy breaking
Now it's busy breaking

Went so far
Down this road
I felt depression deep in my soul
Drug fuelled fights
Ride your lows and highs
We played it all out
Till we died

While you were busy breaking hearts
I was busy breaking
I was giving all my love
You were busy taking
Summer haze of summer wine reminded me of better times
But I let you in my heart
So now it's busy breaking

While you were busy breaking hearts
I was busy breaking
I was giving all my love
You were busy taking
Summer haze of summer wine reminded me of better times
But I let you in my heart
But I let you in my heart
Why'd I let you in my heart?
'Cause now it's busy breaking
