

# No God

Sam Smith

When you tell me what's on your mind  
I don't know how you sleep at night  
Why do you have to be in control?  
When you're wrong, baby, let it go

Just because it's your opinion doesn't make it right  
I say it 'cause I care for you  
I'm tryna be there  
Wanna meet you halfway baby, you just wanna fight  
I say it 'cause I care for you  
I say it 'cause I care

You're no God, you're no leader  
You're no saint, you're no teacher  
You're no God (Ain't nobody wanna hear your voice)  
You're no God (Ain't nobody's gonna save you, save you)  
You're no God (Give up)  
You're no leader (Repent)  
You're no saint (Shut up)  
You're no teacher (That's enough)  
You're no God (Ain't nobody wanna hear your voice)  
No God (Ain't nobody's tryna save you, save you)

You so openly use your voice  
They're your words, baby, it's your choice (Baby, it's your choice)  
Are you really so scared to lose?  
Baby, what are you tryna prove?

You're no God (Give up)  
No teacher (Wake up)  
You're no saint (Shut up)  
No leader (That's enough)  
You're no God (Ain't nobody wanna hear your voice)  
No God (Ain't nobody's tryna save you, save you)  
You're no God (Give up)  
You're no teacher (Wake up)  
You're no saint (Shut up)  
You're no leader (That's enough, now)  
You're no God (Ain't nobody wanna hear your voice)  
No God, no God (Ain't nobody's tryna save you, save you)

No, I'm never gonna change your mind  
Try and see it from the other side  
Somewhere between wrong or right  
I know you're tryna heal the world  
You're only tryna prove your worth  
Oh, baby, just watch your words

You're no God, you're no teacher (No, no, no, no, no)  
You're no saint, you're no leader (No, no, no, no, no)  
You're no God (No, no, no, no, no)  
You're no God (You-ou are no God)  
You're no God, you're no teacher (No, no, no, no, no)  
You're no saint, you're no leader (No, no, no, no, no)  
You're no God (No, no, no, no, no)  
You're no God (You-ou are no God)

(You think you're hot right now, you are no God)  
(Might be on top right now, but you are no God) (No God)  
(You think you're hot right now, but you are no God) (Slow that thing down,  
no God)  
(Might be on top right now, but you are no God) (No God)
