

Bow

Sam Sparro

"Will you stop scratchin' and give me a beat?"

Never to you, never to no man, I don't
No, not me, no way, no how, I don't
Never see me down on my knees (oh no)

So fear not, it's just a blip
Now fill your cup and take a sip
Don't look down, you might slip
It's low lows so hold your grip (hold your grip)
You give your power to what you think
Now wash your tears right down the sink
A million dollars around your neck
Can't fill that hole with blank checks

Never to you, never to no man, I don't
No, not me, no way, no how, I don't
Never see me down on my knees (oh no)
Never to you, never to no man

Yeah, I can taste it, it's in my reach
The greatest hope, the sweetest peach
And I hear you laughin', it won't be long
I'll watch you fall and I'll right your wrongs
So thank you very much for drivin' me crazy
You led me to a higher high
Yeah, thank you very much for drivin' me crazy
Yeah, you're the reason why

Never to you, never to no man, I don't
No, not me, no way, no how, I don't
Never see me down on my knees (oh no)
Never to you, never to no man
No, never to you, never to no man, I don't
No, not me, no way, no how, I don't
Never see me down on my knees (oh no)
Never to you, never to no man

If there comes a time
When the world is falling down
Get together in a crowd
And make a sound

Never to you, never to no man, I don't
No, not me, no way, no how, I don't
Never see me down on my knees
Never to you, never to no man
