

## Fascism

Sam Sparro

Do what I say don't do what I do  
I know what you're doing because  
I'm watching you  
Don't you question it  
Don't you doubt it  
Don't even think about thinking about it

Gotta ask my witness, life is business  
And busy busy bees getting honey for legitness  
You're a machine and with your life has been invested  
Now do what you've been told  
Before you get yourself arrested

I just want to do what I want to do  
Don't you want to do what you want to do  
I just came to say what I had to say  
Put that shit on lock and throw the keys

You see these borders and you see these lines  
You keep these orders or you pay these fines  
Now at the hand of gorillas and swine  
You keep on digging down in that line

Gotta ask my witness, life is business  
And busy busy bees getting honey for legitness  
You're a machine and with your life has been invested  
Now do what you've been told  
Before you get yourself arrested

I just want to do what I want to do  
Don't you want to do what you want to do  
I just came to say what I had to say  
Put that shit on lock and throw the keys

Yes  
We see you  
And we know what you are trying to do  
Crap  
But it's not going down  
Without a clue  
Fight  
First

I just want to do what I want to do  
Don't you want to do what you want to do  
I just came to say what I had to say  
Put that shit on lock and throw the keys
