

# Infinite

Sam Sparro

Don't stop it...

Well it might sound a little crazy, but we are, made up of tiny  
little atoms far apart  
And you can take that life to wherever you want, you're in a big  
flash ship  
Made the dust to the stars and you might get a little crazy but  
some are crazier, yes some are crazier a-a-a-a-a

Don't stop it...

Infinite infinite infinite infinite...

Caught up in pumpin' circumstances  
You forgot  
That this was just a visitation  
You are not  
If for a long long time so be ready to die  
Because you will someday and your momma will cry and if you think  
you're going crazy you probably are will you probably are

Don't stop it...

Infinite infinite infinite infinite...

Don't stop it...

Infinite infinite infinite infinite...
