

Like A Ghost

Sam Sparro

It was once upon a time
I was yours and you were mine
But that came to an end so long ago
Underneath my veil again
Can no longer pretend
That I can see you on your way back home

I still see you in that final glow
It's only you who knows
It's only you who knows
I still hear you in my lullabies
And when I close my eyes
I see you like a ghost

We were burning hot on fire
Misled by desire
But now I'm never referred to by name
Will it all climax again?
Will I ever be the friend?
Who saved you with the scorching of my flame

Is that you knocking at my door?
Will you ever come calling?
Do I still live on in your thoughts
The way you live on in me?

I still see you in that final glow
It's only you who knows
It's only you who knows
I still hear you in my lullabies
And when I close my eyes
I see you like a ghost

Like a ghost
Like a ghost
Like a ghost
Like a ghost

Do you feel it too
Or am I just bugging?
Is it haunting you
Do you miss my loving?
Living my life to the limit
Giving my love to the living
I'm living my life to the limit
Giving it up

Do you feel it too
Or am I just bugging?
Is it haunting you
Do you miss my loving?
Living my life to the limit
Giving my love to the living
I'm living my life to the limit
Giving it up
