

THE PPL

Sam Sparro

For, for, for, for the pe-pe-people
For, for, for, for the pe-pe-people
For, for, for, for the pe-pe-people
This right here is for the, for the people

No going back to the feeling
Keep holding on the vibe
I think I just found a reason
I left it all in the night
If I let go
Will I feel it
I'll make it down to the wire
If I call out
Will you hear it
Just need some time to get right

Are we ready to get right?
Are we ready to get right?

For the people
For the people people
Cause there's power in the people
Oh for the people
In my life

Not by choice but by karma
I felt my soul on the line
Now that the waves are much calmer
My city gave me life
If I call out
Will you hear it
Just need some time to get right

Are we ready to get right?
Are we ready to get right?

For the people
For the people people
Cause there's power in the people
Oh for the people
In my life

This is for mi gente
This is for mi gente (my people)
Para Siempre

This is for mi gente
This is for mi gente
Never looking back, soy presente

This is for mi gente
This is for mi gente (my people)
Para Siempre

This is for mi gente
This is for mi gente
Never looking back, soy presente

(We gotta)
We gotta take up space
(We gotta)
You gotta live your life
(We gotta)
You gotta make it right
(We gotta)
You gotta make it right

(We gotta)
We gotta take up space
(We gotta)
You gotta live your life
(We gotta)
You gotta make it right
(We gotta)
You gotta make it right

For the people
For the people people
Cause there's power in the people
Oh for the people
In my life

(That was cute bih)
