

Battleground

Sam Tinnesz

You see success but you don't see the fight
You want respect but never seen the darker side
What I lost to get it, what it cost to set it
Blacking out the critics, pushing all the limits
You want the crown but you don't want the climb
You crave the win but not the sacrifice
All the pain, all the power, all the money never soured
Every scar has a story, it's a struggle for the glory

I leave it all on the battleground
A soldier ready to fight
Leave it all on the battleground
Got everything on the line
Turning blood into gold, fear into roads
Paving my path where my destiny goes
Leave it all on the battleground
I leave it all on the battleground
I leave it all on the battleground

I'm at war with the monster inside of my head
A voice keeps telling me I'm not done yet
With the odds stacked against me, courage never left me
Struggles tried to test me, regrets won't get me
So let the sparks fly with the war cry
On the front lines to the edge till I got nothing left
Tired and depressed, quiet and obsessed
Never-ending quest till my thoughts manifest

I leave it all on the battleground
A soldier ready to fight
Leave it all on the battleground
Got everything on the line
Turning blood into gold, fear into roads
Paving my path where my destiny goes
Leave it all on the battleground
I leave it all on the battleground
I leave it all on the battleground

I'm not holding back, not holding back
Giving all that I have, all that I have
I'm not holding back, not holding back
Giving all that I have

Yeah, it's all I got
It's all I know
I can't stop
I keep going
I won't quit
Never give up
Let's go

I leave it all on the battleground
A soldier ready to fight
Leave it all on the battleground
Got everything on the line
Turning blood into gold, fear into roads
Paving my path where my destiny goes

Leave it all on the battleground
I leave it all on the battleground
I leave it all on the battleground

Leave it all on the battleground
I leave it all on the battleground
On the battleground
