Changes

Sam Tinnesz

This is everything that we dreamed of
Everything we worked so hard for

A story nobody could make up
You and I know

You're beautiful in every season
Quit giving me a thousand reasons, why
I'd be walking away
You know I'm all yours

Through the changes
Never leaving you in the hard times
Changes
Keeping us steady on the fault lines

Let's build a bridge
Just for the two of us
I love you through em all
Changes, through the changes

I'm always wanting more fill the plate up
But am I building castles between us
I swear it on my life, on Jesus
I'll never let go

It's hard to be here when I'm not but
It's just a footnote to forever
Yeah, I'm thinking of you
Wherever I go

All the blood sweat tears years
Struggling you were there no one else really cared
I'm happy right here
I want you the most

Through the changes
Never leaving you in the hard times
Changes
Keeping us steady on the fault lines

Let's build a bridge
Just for the two of us
I love you through em all
Changes, through the changes

Through the changes
Changes
Through the changes

All the blood sweat tears years
Struggling you were there no one else really cared
I'm happy right here
I want you the most

Through the changes
Never leaving you in the hard times

Changes
Keeping us steady on the fault lines

Let's build a bridge
Just for the two of us
I love you through em all
Changes, through the changes
