

Fearless

Sam Tinnesz

Deep in the shadows
In the outer darkness
Where the smoke billows
And criminals live lawless
I hear the weeping and gnashing of teeth
And they calling
But I'ma stand strong
I'm fighting, I'm not falling
Running through the gauntlet
Focused on the target
I might as well grow a mane
I'm lion-hearted
I'm a king though
Wait until I take the throne
They gon' see the glory show
They gon' see what we foretold
Cast my crown down on the ground
I'm ready to give it all
I will fight to the end
These giants are gonna fall
Look 'em in the eye
I am not afraid to die
Plus I got this confidence that
Dominance is on my side
Remember all the tears I cried
Remember all the darkest nights
Bring 'em to this moment
And redeem them in the greatest fight
Yeah
Ayy, I'm ready for whatever
You pull the trigger whenever
I'm here, no fear, never!

Time to be fearless
Time to be brave
Ready for battle
Whatever it takes
Staring these demons right in the face
Fearless, fearless
This is our moment
This is our fight
Pushing straight forward
Do or die
Out of these ashes we're gonna rise
Fearless, fearless

I fought the darkness villains
Defeated the greatest killers
But to me the biggest opponent
Looks at me from the mirror
My thoughts run wild
It's harder to see clearer
My mind is so traumatized
I'm looking for the curer
But I'm the type to not quit
I'm the type to go in
I'm the one that they counting on

If I fall? What then?
My heart is speeding up
Wondering if I got enough
The adrenaline been pouring in
And I feel high from the rush
You hear the thunder
When the lightning strikes
See it flash like the sun
That's how it is when your time comes
All of a sudden it's done
You gotta live life to fullest
Live life to the max
Stare death in the face
And give everything you have
So I'm gonna fight
I'm gonna brawl
I'm gonna run
I'm gonna charge
I'm gonna give
All that I got
I'm gonna live
I'm gonna love
This is for the ones beside me
This is for the greatest cause
For the ones who lived before me
And they gave it all

Time to be fearless
Time to be brave
Ready for battle
Whatever it takes
Staring these demons right in the face
Fearless, fearless
This is our moment
This is our fight
Pushing straight forward
Do or die
Out of these ashes we're gonna rise
Fearless, fearless

Fearless
I'm ready to give it all
Time to be fearless
These giants are gonna fall
Fearless
I'm ready, ready
Oh
I'm ready, ready

Time to be fearless
Everything I got
Fearless
Never gonna stop
Fearless
It's time to be
It's time to be
Fearless
