

# Lay Your Weapons Down

Sam Tinnesz

We're steady on the blade  
But our hearts are getting tired  
Can't see it through the flames  
Or the ringing in our ears  
We're losing all the reasons for our hate  
Have we gone too far to find escape?  
Lay your weapons down

Lay your weapons down  
Lay your weapons down  
Don't need to do this  
Can't make it through this  
Lay your weapons down  
We can't fight anymore  
We can't fight anymore

The battle's never won  
The fight is never over  
Not until the sun is torn out from the sky  
War is just a drug that's made for fools  
Sifting through the ruins we both lose

Lay your weapons down  
Lay your weapons down  
Don't need to do this  
Can't make it through this  
Lay your weapons down  
We can't fight anymore  
We can't fight anymore

Ooh, ooh  
We can't fight anymore (Ooh)  
Lay your weapons down  
Lay your weapons down  
Don't need to do this  
Can't make it through this  
Lay your weapons down  
We can't fight anymore  
No, no, no  
We can't fight anymore
