

Misfit

Sam Tinnesz

Misfit...

I been living on the edge jumping off the ledge
100 miles a hour going code red
Throw a brick through the window of injustice
No peace with out war causing ruckus
A misfit to society the rivalry
You can't tell
Me nothing so don't talk to me
No religion with conditions
Tear the walls down crack system on a mission
Whoa

Nobody tells me
Nobody tells me what to do
Nobody tells me
Nobody tells me how to move
Nobody tells me
Nobody tells me what to do
I'm a wired like a misfit breaking all the rules

Misfit
Misfit
Whole gang with me, yeah we're breaking all the rules

Misfit
Misfit
Whole gang with me, yeah we're breaking all the rules

Ahead of the curve ok I'm cutting edge
Foot on they neck that's the way I step
The greatest free thinker world wide leader
The misfits are here, we going off the meter
Burn it down to build it up, that's a revolution up
Say it loud I'm a rebel
This is how we moving
Find yourself at the moment so you never lose it
The future is now let's start the movement

Nobody tells me
Nobody tells me what to do
Nobody tells me
Nobody tells me how to move
Nobody tells me
Nobody tells me what to do
I'm a wired like a misfit, breaking all the rules

Misfit
Misfit
Whole gang with me, yeah we're breaking all the rules

Misfit
Misfit
Whole gang with me, yeah we're breaking all the rules

I make the trends
I make the waves

Can't box me in
I'm out the cage

I make the trends
I make the waves
I call the shots
The world obeys
The world obeys
Misfit, misfit
The world obeys
Misfit, misfit

Yeah, it's going down now
Yeah, the misfits come out

Misfit
Misfit
Whole gang with me, yeah we're breaking all the rules

Misfit
Misfit
Whole gang with me, yeah we're breaking all the rules

Yeah, misfit
