

# Never Leave Your Side

Sam Tinnesz

You tie your feet in a lonely rope  
A rock to the bottom of your endless soul  
You close your eyes and wish it'd fade  
All the pain of yesterday

You gotta know it's gonna get better  
You gotta know that you're so close

When the world is broken  
When you don't feel safe  
I'll never leave your side  
When you're rolling under  
The crashing waves  
I'll never leave your side

I'll never leave your side

Cross your heart and testify  
We'll see the sun in the nick of time  
Catch your breath, I'll hold the line  
Together's keeping us alive

I want you to know the worst is over  
I want you to know you'll find your way

When the world is broken  
When you don't feel safe  
I'll never leave your side  
When you're rolling under  
The crashing waves  
I'll never leave your side

I'll never leave, I'll never leave your side  
Don't wanna leave, don't wanna leave your side  
I'll never leave, I'll never leave your side  
Don't wanna leave, don't wanna leave your side

(I'll never leave, I'll never leave your side  
I don't wanna leave, I don't wanna leave your side)

When the world is broken  
When you don't feel safe  
I'll never leave your side  
When you're rolling under  
The crashing waves  
I'll never leave your side
