

Now's Your Time

Sam Tinnesz

So many days
We stare in the mirror face to face
With all our doubts

We can't erase
All of the failure and the shame
That holds us down

Don't be rattled
On the battle line
Let your power rise

In the night
Don't let the shadows hide
All the fire inside

Raise a torch
Lift it high
Let the world see your light

Reach for more
Touch the sky
It's the moment
Now's your time
Now's your time

Out of the smoke
Out of the dreams that broke like glass
There's still hope

Someday we'll know
All of the seasons of the past
Will bloom like roses

Don't be rattled
On the battle line
Let your power rise

In the night
Don't let the shadows hide
All the fire inside

Raise a torch
Lift it high
Let the world see your light

[illegible]

Now's your time
Now's your time
Now's your time
Now's your time

Now's your time
