

Remember This (Graduation Day)

Sam Tinnesz

Let's go running backwards to the times
Where the streetlights lit the pavement, the pavement
Reaching for the moon up in the sky
Spilling dreams out in your basement, your basement
The longer we wait, nothing's the same
Wish time could stop, so nothing would change

Break into our old school
Write our names up on the walls
Maybe they'll remember us
I know we'll remember this

Let's find that old payphone
Numbers from the bathroom stall
Maybe they'll remember us
I know we'll remember this the rest of our lives

I know we'll remember this the rest of our lives

Jump the fence and find our favorite spot
Getting lost in every weekend, weekend
Making memories in the movie parking lot
Lessons they could never teach us, teach us

Seconds will fade miles away
Hard to let go when these are the days

Break into our old school
Write our names up on the walls
Maybe they'll remember us
I know we'll remember this

Let's find that old payphone
Numbers from the bathroom stall
Maybe they'll remember us
I know we'll remember this the rest of our lives

I know we will
I know we will
I know we'll remember this the rest of our lives

Break into our old school
Write our names up on the walls
Maybe they'll remember us
I know we'll remember this

Let's find that old payphone
Numbers from the bathroom stall
Maybe they'll remember us
I know we'll remember this the rest of our lives

I know we will
I know we will
I know we'll remember this the rest of our lives

I know we will
I know we will

I know we'll remember this the rest of our lives
