You can try but you can't
Take the crown from my hands
We live in dangerous times
And I'm the man with the plan
I got big shoes to fill
I shoot to kill
Do you feel the power shaking under me

I run with the giants
There's no slowing me down
I run with the giants
There's no stopping me now

I'm making real big moves
In a real big way
Gonna shut this whole place down
Light it up in flames
I got big shoes to fill
I shoot to kill
Do you feel the power shaking under me

I run with the giants
There's no slowing me down
I run with the giants
There's no stopping me now
I run with the giants
There's no stopping me now
I run with the giants
There's no stopping me now
