

# Spaced Out

Sam Tinnesz

I been all in my head  
Wide awake in my bed  
Everything we said on repeat  
Am I really that guy  
I been thinking 'bout why  
You needing some time just kills me

This shit is cold as ice  
You're not being very nice

While you're up there on cloud 9  
I'm under the power lines  
Head in my hoodie, an American Reject  
We played out their records  
When things were better  
Now all of the love songs sound so stupid

We're too close to be far away  
I know you need a little space right now  
But I'm spaced out  
I'm spaced out

I'm starting to hate  
Us taking a break  
And I keep getting wasted on time  
Why does it feel like  
Your heart's doing better than mine

Up there on cloud 9  
I'm under the power lines  
Head in my hoodie, an American Reject  
We played out their records  
When things were better  
Now all of the love songs sound so stupid

We're too close to be far away  
I know you need a little space right now  
But I'm spaced out  
Spaced out

This shit is cold as ice  
You're not being very nice these days

While you're up there on cloud 9  
I'm under the power lines  
Head in my hoodie, an American Reject  
We played out their records  
When things were better  
Now all of the love songs sound so stupid

We're too close to be far away  
I know you need a little space right now  
But I'm spaced out  
Spaced out  
I'm spaced out
