

# Superhuman

Sam Tinnesz

I take the hits  
Climbing out of the pit  
Not afraid of the risk  
Lightning in my fist  
I am a god  
I am a juggernaut  
Force of nature  
I'm here it set it off  
Mission impossible I never quit  
Oh no

Climbing Mount Olympus  
They doubt that I'm gonna get it  
They say the sky's the limit  
But the world's about to witness

I'm superhuman  
I'm superhuman  
Out of the blue  
I do what I do  
Grounds gonna move  
I'm coming through, I'm coming through

I'm superhuman  
I'm superhuman  
Out of the blue  
I do what I do  
Grounds gonna move  
I'm coming through, I'm coming through

I'm superhuman

My power is fueled by adrenaline  
Bringin the strength of a thousand men  
One shot and I never miss  
Put em in shock when I flip the switch  
I'm taking over  
Full supernova  
Enemy smoker  
I'm a flame thrower  
You'll know if you come closer, come closer

Climbing Mount Olympus  
They doubt that I'm gonna get it  
They say the sky's the limit  
But the world's about to witness

I'm superhuman  
I'm superhuman  
Out of the blue  
I do what I do  
Grounds gonna move  
I'm coming through  
I'm coming through

I'm superhuman  
I'm superhuman

Out of the blue  
I do what I do  
Grounds gonna move  
I'm coming through  
I'm coming through

Faster than a speeding bullet  
I'm the best to ever do it  
Hall of fame yeah the records proven  
I'm the best to ever do it

I'm superhuman  
I'm superhuman  
I'm superhuman  
I'm superhuman  
Out of the blue  
I do what I do  
Grounds gonna move  
I'm coming through  
I'm coming through

I'm coming through

I'm superhuman  
Yeah, yeah, yeah, yeah  
I'm superhuman  
Oh  
Out of the blue  
I do what I do  
Grounds gonna move  
I'm coming through  
I'm coming through

Oh, I'm superhuman  
I'm superhuman
