

# Switch It Up

Sam Tinnesz

Foot on the gas  
Put in reverse  
I bring the change  
You know I serve  
Flip that original  
That's the game  
Pop like confetti  
When I blow the brains

All day  
It's the future with a twist  
All day  
When I do it like this

I switch it up  
I switch it up  
That new look  
New wave  
They all like that  
New thang  
I switch it up  
Switch it  
Switch it  
Switch it up

Neon adventure in my vein  
Throwin' the color you never seen  
Blazin' the trail when I light the flame  
When I touch the world it don't stay the same  
I touch the world it don't stay the same

I switch it up  
I switch it up  
That new look  
New wave  
They all like that  
New thang  
I switch it up  
Switch it  
Switch it  
Switch it up

All day  
It's the future with a twist  
All day  
Switch it  
Switch it  
Switch it up

Switch it  
Switch it

When ya need something else, make it flip  
Yeah, it's a trip  
When ya do it like this  
When ya need something else, make it flip  
Yeah, it's a trip

When ya do it like this

I switch it up  
I switch it up  
That new look  
New wave  
They all like that  
New thang  
I switch it up

All day  
It's the future with a twist  
All day

Everybody let me show you how to mix it up
