

Tear It Down

Sam Tinnesz

Let's tear it down

Soldiers

We got blood to bleed

This is our fate in the balance

So let's fight with a vengeance

Chained up

For eternity

Getting so tired of the waiting

Time to bust outta these cages

You're not gonna see this coming

You're not gonna see this coming

It'll be too late when you hear the sound

Let's tear it down

So we can rise up

Let's tear it down

So we can rise up

Savages

Showing no mercy

This is a game of survival

Might be dead on arrival

Privilege

Is not for the weak

When the walls start caving

It'll be ours for the taking
