

# Thunderbolt

Sam Tinnesz

Courage is overcoming fear  
We here  
Go hard till the end  
All clear  
Mama told me there'd be days like this  
So I never back down when it's dangerous  
Get it  
Out the mud baby cause I came from this  
What's beef to my squad but an angus strip  
It's rare, but gory  
No guts no glory  
Icon energy  
The star of the story  
You want to shut us down but you can't do that  
Erase or take my place but you can't do that

I've always been a fighter  
Got lightning in my bloodstream  
When I release the power you know  
I hit em with the thunderbolt  
Thunder Thunderbolt  
I him em with the thunderbolt  
Thunder Thunderbolt  
I hit em with the thunderbolt

You ain't stopping this power bro  
Standing on business  
Witness the vengeance against our foes  
That's how it goes  
Buckets like the NBA  
They silent like an NDA  
From the fallout when we all out  
Watching like the NSA  
In and out we gotta go  
Laugh  
And play, but it's not a joke  
Take the game cause you're not a pro  
Looking different kaleidoscope  
How you living is not a goal  
Giving people the highest hope  
The brightest mode  
I'm on  
Remember me like the Alamo

I've always been a fighter  
Got lightning in my bloodstream  
When I release the power you know  
I hit em with the thunderbolt  
Thunder Thunderbolt  
I him em with the thunderbolt  
Thunder Thunderbolt  
I hit em with the thunderbolt

Work harder than the next man  
Ain't no time to rest man  
Put some muscle in it like I'm flexing  
For the glory I was destined

Tell 'em ain't no question  
Handling the rock like the best man

Work harder than the next man  
Ain't no time to rest man  
Put some muscle in it like I'm flexing  
For the glory I was destined  
Tell 'em ain't no question  
Handling the rock like the best man  
Hit em  
I hit em with the thunderbolt  
Thunder Thunderbolt  
I hit em with the thunderbolt  
Thunder Thunderbolt  
I hit em with the thunderbolt
