

all my everything

Sam Tompkins

I try my best to satisfy your every need
But I barely even seem to even know myself
All that there's nothing but consuming
Uhh, yeah
Ohh, I'm confused
Each way I lose with you

Oh I just
Hate the mirror now
Got things to figure out
When I know what it is
I'll give you all my everything
Trying to keep you safe
Please just stay away
When I get out of this
I'll give you all my everything

Before I jump right in
Give my heart full swing
Could you please forgive honey?
Time to live my life and fight, ooh
Ooh, I am without you
Each way I lose, it's true

Oh I just
Hate the mirror now
Got things to figure out
When I know what it is
I'll give you all my everything
Trying to keep you safe
Please just stay away
When I get out of this
I'll give you all my everything

Each way I lose with you, oh
Ohh, I'm confused
Who am I without you?

Oh I just
Hate the mirror now
Got things to figure out
When I know what it is
I'll give you all my everything
Trying to keep you safe
Please just stay away
When I get out of this
I'll give you all my everything
