

## almost killed me

Sam Tompkins

Sad was the day we said goodbye  
Love was the thing that almost killed me  
Joy was the night we took a ride  
Young is the way we always will be  
Hope is the way we try to stay  
Tired is how we walked away  
Sad was the day we said goodbye  
Your love was the thing that almost killed me

I don't really wanna lie  
Pacing up and down the hallway like a hundred times  
I've been showing you the signs  
Girl, we didn't even kiss goodbye last night  
Oh, you can say that I am selfish  
Wish I could change the way it ended

Sad was the day we said goodbye  
Love was the thing that almost killed me  
Joy was the night we took a ride  
Young is the way we always will be  
Hope is the way we try to stay  
Tired is how we walked away  
Sad was the day we said goodbye  
Your love was the thing that almost killed me

We didn't sign a dotted line  
But it cuts as deep as a knife each night  
When I think about you crying  
It still sends shivers right down my spine  
Thought we could be a movie, a scene  
Now I can see that we were pretending

Sad was the day we said goodbye  
Love was the thing that almost killed me  
Joy was the night we took a ride  
Young is the way we always will be  
Hope is the way we try to stay  
Tired is how we walked away  
Sad was the day we said goodbye  
Your love was the thing that almost killed me

Almost killed me  
Almost killed me  
Almost killed me  
Your love was the thing that almost killed me
