

My Brother

Sam Tompkins

I never call but you hear me anyway
You stand tall but you keep me in the shade
I've hit a wall way down in my headspace
Lost the words I've clung to
I never call but you hear me anyway

Hold my heart
Whilst you brace my fall

When I need the light to guide me
I go straight to my father
When my tears well up inside me
I go straight to my mother
I can tell my sister anything
And that don't scare me
But you're the person I'd like to be
Thank goodness you're my brother

It was a day that we didn't want anyway
We lost nana and I didn't know what to say
I needed someone and you didn't hesitate
And you were still so young, too
That kinda love, you can't replicate

Hold my heart
Whilst you brace my fall

When I need the light to guide me
I go straight to my father
When my tears well up inside me
I go straight to my mother
I can tell my sister anything
And that don't scare me
But you're the person I'd like to be
Thank goodness you're my brother

Don't express my feelings
Too good but I mean this
Thanks for never leaving me, ooh
Don't express my feelings
Too good but I mean this
Thanks for never leaving me, ooh

Hold my heart

When I need the light to guide me
I go straight to my father
When my tears well up inside me
I go straight to my mother
I can tell my sister anything
And that don't scare me
But you're the person I'd like to be
Thank goodness you're my brother

Thank goodness you're my brother
Thank goodness you're my brother
Thank goodness you're my brother

Thank goodness you're my brother
Thank goodness you're my brother
