

I think we spent too long
Living our lives through the eyes of another
Tell us we're not that strong
But I feel alive, knowing we got each other

I know the storm is coming
But trust me we'll outrun it
Hear my heartbeat drumming
An open road is calling
Aren't you tired of stalling
Almost feels like falling

Tonight we're gonna find the key
So baby follow me 'cause we are gonna be free
So try, open your eyes and see
So baby follow me 'cause we are gonna be free

So baby follow me 'cause we are gonna be free
So baby follow me 'cause we are gonna be free

It's gonna be alright
All of the ghosts are fading behind us
And don't you dare apologize
We got the scars on our hearts to remind us

I know the storm is coming
But trust me we'll outrun it
Hear my heartbeat drumming
An open road is calling
Aren't you tired of stalling
Almost feels like falling

Tonight we're gonna find the key
So baby follow me 'cause we are gonna be free
So try, open your eyes and see
So baby follow me 'cause we are gonna be free

So baby follow me 'cause we are gonna be free
So baby follow me 'cause we are gonna be free

Don't hide your feelings, now's not the time
The rhythm you're hearing is your lifeline
Just give me a reason, show me a sign
We'll fight for our freedom

Tonight we're gonna find the key
So baby follow me 'cause we are gonna be free
So try, open your eyes and see
So baby follow me 'cause we are gonna be free

So baby follow me 'cause we are gonna be free
So baby follow me 'cause we are gonna be free
