

# Just for Tonight

Sam Tsui

Facing another day  
Gotta walk the line  
Been dreaming of a getaway  
Waiting for the sign  
Spinning my wheels  
Lately it feels like I'm treading water  
Treading water

She said do you wanna come with me  
On a Friday night  
We could be who we wanna be  
Under neon lights  
There in the dark  
Where we can start to show all our colors  
All our colors

Dancing shoes on, she said  
Let's head straight to the city  
Fire in her eyes  
Young and free and we look  
So good that wouldn't it be a pity  
Keeping this inside

So just for tonight  
Let's leave the labels behind  
Remind ourselves we're alive  
Just for tonight  
We'll risk it all in a glance  
And dance as long as we like  
Just for tonight

Our song playing on the radio  
Take me somewhere we can let it go  
Somewhere we'll be alright  
Just for tonight, just for tonight  
New emotion coming over me  
No one saying who we gotta be  
I know we'll be alright  
Just for tonight, just for tonight

Bright lights and blurry vision  
The electric glow  
Releasing our inhibition  
Let the pressure go  
Where we belong  
We've got til dawn, don't you waste one minute  
Waste one minute

Dance with strangers and make  
Mistakes that we don't know better  
Fire in our eyes  
Young and free, yeah we may  
Not stay this way forever  
But we've still got time

So just for tonight  
Let's leave the labels behind

Remind ourselves we're alive  
Just for tonight  
We'll risk it all in a glance  
And dance as long as we like  
Just for tonight

Our song playing on the radio  
Take me somewhere we can let it go  
Somewhere we'll be alright  
Just for tonight, just for tonight  
New emotion coming over me  
No one saying who we gotta be  
I know we'll be alright  
Just for tonight, just for tonight

Oh  
Dancing in the glow  
Til we got to go  
She said, you don't have to fight

Just for tonight  
Let's leave the labels behind  
Remind ourselves we're alive  
Just for tonight  
We'll dance as long as we like

Just for tonight  
Let's leave the labels behind  
Remind ourselves we're alive  
Just for tonight  
We'll risk it all in a glance  
And dance as long as we like  
Just for tonight

Our song playing on the radio  
Take me somewhere we can let it go  
Somewhere we'll be alright  
Just for tonight, just for tonight  
New emotion coming over me  
No one saying who we gotta be  
I know we'll be alright  
Just for tonight, just for tonight  
Ooh  
Just for tonight, just for tonight
