

# Muscle Memory

Sam Tsui

I got you on my skin  
I don't know where you've been  
But I remember how it feels, yeah  
(I remember how it feels, yeah)  
It's a new address  
But like we never left  
And there's nothing so familiar  
(There's nothing so familiar)

You know it's written on my pages  
We're still fluent in each other's body language  
Recalling chemical attractions  
For you and me, it all comes back naturally

Know we've been tryna stay away  
I can't fight this muscle memory  
These hands fall right back into place  
Like it was only yesterday  
Following muscle memory (muscle memory)

Patterns on the wall  
You didn't think to call  
'Cause you knew just where to find me  
( 'Cause you knew just where to find me)  
New game, same rules  
The way we move  
Baby, we don't need reminding  
(Baby, we don't need reminding)

Somehow the rhythm never changes  
Still fluent in each other's body language  
Recalling chemical attractions  
For you and me, it all comes back naturally

Know we've been tryna stay away (stay away, stay away)  
I can't fight this muscle memory (memory, memory)  
These hands fall right back into place (into place, into place)  
Like it was only yesterday  
Following muscle memory (muscle memory)

Know we've been tryna stay away (muscle memory)  
I can't fight this muscle memory (muscle memory)  
These hands fall right back into place (into place, into place)  
Like it was only yesterday  
Following muscle memory (muscle memory)

It's like a habit, like a habit  
We'll always have it, always have it  
It's automatic, automatic  
It's like a habit, like a habit  
We'll always have it, always have it  
It's automatic, automatic

Know we've been tryna stay away  
I can't fight this muscle memory (memory, memory)  
These hands fall right back into place (into place, into place)  
Like it was only yesterday

Following muscle memory (muscle memory)

Know we've been tryna stay away (muscle memory)

I can't fight this muscle memory (muscle memory)

These hands fall right back into place (into place, into place)

Like it was only yesterday

Following muscle memory (muscle memory)
