

Perfect Storm

Sam Tsui

Underneath all of this all too serious
I fight for the turbulence
Can't be so perfect I
Try to uncover your lightning, your thunder
In color I stumble, I stand

I...
Wanna shake things up
Feeling dangerous
Tonight...
Can't you feel there's a change in the wind

I'm rolling in
like a perfect storm
All that you been
You been waiting for

Crash through your window
Been stuck in limbo
And now everything's tumbling down
And I
Gotta taste all of it
Love in the dark
Touch my heart as we move to the sound

I...
Wanna feel the rush
Getting dangerous
Tonight...
Can't you feel there's a change in the wind

I'm rolling in
like a perfect storm
All that you been
You been waiting for

Baby, it's blinding
in the eye of the storm
As the world starts unwinding
I'm not afraid anymore

Baby, it's blinding
in the eye of the storm
As the world starts unwinding
I'm not afraid

I'm rolling in
like a perfect storm
All that you been
You been waiting for

I'm rolling in
like a perfect storm
All that you been
You been waiting for

I'm rolling in

like a perfect storm
All that you been
You been waiting for
