

Possible

Sam Tsui

Something stirring in the air today
Just a feeling
Like someone came and blew the clouds away
Got me believing in
All the we can do
Baby me and you
All the stars could be ours if we want them to
Something stirring in the air today
Can you feel it
Can you feel it

Suddenly anything seems like it's possible
Yeah we're starting fresh
Deep breathe till your lungs are full
Got a song in your heart that you wanna sing
Why you waiting to start because anything
Is possible
Is possible
Is possible

It's possible
It's possible

Suddenly anything seems like it's possible
Yeah we're starting fresh
Deep breathe till your lungs are full
Got a song in your heart that you wanna sing
Why you waiting to start because anything
Is possible
Is possible
Is possible

It's possible
It's possible
