

## Second to Midnight

Sam Tsui

Oh my, it's getting late  
High tide, wash it all away  
Can you feel it in the air now  
So take my hand and better take it fast  
Nothing good is ever meant to last

Didn't mind the smoking gun  
Saw the signs, so we had our fun  
Trying all our prayers now  
Darling, does it matter who's to blame  
When the world is going down in flames?

Don't live me alone with nowhere to go  
There's only a moment now  
Let me get lost in those eyes  
Down to the wire, facing the fire  
A flash in the sky around us  
I think we're running out of time

Tick tock, we've only got a second 'til midnight ('til midnight, ah)  
Don't stop, and everybody watching those red lights (those red lights, ah)  
So heads up, baby, time to hit the ground  
Hold me close, the sky is falling down

Tick tock, we've only got a second 'til midnight ('til midnight, ah)  
Sleepwalk, straight into the breath of those headlights (those headlights, ah)  
So heads up, baby, time to hit the ground  
Hold me close, the sky is falling down

Warning bells, smoke alarms  
Still racing for each other's arms  
Has got nothing left to lose now  
Fingers on the button, 3, 2, 1  
No use looking back at what we've done

Don't live me alone with nowhere to go  
There's only a moment now  
Let me get lost in those eyes  
Down to the wire, facing the fire  
A flash in the sky around us  
I think we're running out of time

Tick tock, we've only got a second 'til midnight ('til midnight, ah)  
Don't stop, and everybody watching those red lights (those red lights, ah)  
So heads up, baby, time to hit the ground  
Hold me close, the sky is falling down

Tick tock, we've only got a second 'til midnight ('til midnight, ah)  
Sleepwalk, straight into the breath of those headlights (those headlights, ah)  
So heads up, baby, time to hit the ground  
Hold me close, the sky is falling down

We've only got a second 'til midnight, midnight  
Midnight, oh

Tick tock, we've only got a second 'til midnight ('til midnight, ah)  
Don't stop, and everybody watching those red lights (those red lights, ah)  
So heads up, baby, time to hit the ground  
Hold me close, the sky is falling down

Tick tock, we've only got a second 'til midnight ('til midnight, ah)  
Sleepwalk, straight into the breath of those headlights (those headlights, ah)  
So heads up, baby, time to hit the ground  
Hold me close, the sky is falling down
