

Shoot The Arrow

Sam Tsui

You're a good shot, or so you tell me
You talk a whole lot about setting me free
Say you can fight my demons and make 'em obey, yeah
But I'll believe it when I get carried away

You want the glory
But you don't wanna take the oath
You want the story, not the growth
Facing the dragon
But you can't look him in the eye
Why you trigger shy?

You've been taking your aim
For so long, making paper planes
Say you scaled the mountains babe
The heat is on and you hesitate
Show me now in the present tense
That you got more than experience
'Cause it's make or break
And the line is narrow
Just shoot the arrow

Just shoot the arrow
Just shoot the arrow
Just shoot the arrow
It's make or break
And the line is narrow
Just shoot the arrow

We're in danger, or didn't you see
Is it just your nature, rushing in with cold feet
You think you're in a movie, such a superhero, oh
I'm calling action, but you're just holding the bow

You want the glory
But you don't wanna take the oath
You want the story, not the growth
Facing the dragon
But you can't look him in the eye
Why you trigger shy?

You've been taking your aim
For so long, making paper planes
Say you scaled the mountains babe
The heat is on and you hesitate
Show me now in the present tense
That you got more than experience
'Cause it's make or break
And the line is narrow
Just shoot the arrow

Just shoot the arrow
Just shoot the arrow
Just shoot the arrow
It's make or break
And the line is narrow
Just shoot the arrow

Your chance is coming
You wanna play the hero
But you gotta give me something
You gotta shoot the arrow

Your chance is coming
You wanna play the hero
But you gotta give me something
You gotta shoot the arrow
(Just shoot the arrow)

You've been taking your aim
For so long, making paper planes
Say you scaled the mountains babe
The heat is on and you hesitate
Show me now in the present tense
That you got more than experience
'Cause it's make or break
And the line is narrow
Just shoot the arrow

Just shoot the arrow
Just shoot the arrow
Just shoot the arrow
It's make or break
And the line is narrow
Just shoot the arrow
