

trust

Sam Tsui

I watch you moving across the room
Whatcha doing, who you talking to?
You're second guessing my every word
Believe me less the more that I assure

Cause I've been waiting up at night
And you've been keeping me inside
Carefully, we test the truth, woah
Acting like we're enemies
Is it so hard to believe
Just put your faith in me
And I will put my faith in you

No one's asking for their freedom
We just need a little trust
Yeah it starts with good intentions
But the words are dangerous
I get crazy, you get jealous
But you know it's only us
No one's asking for their freedom
We just, we just need a little trust
Need a little trust
Need a little trust
No one's asking for their freedom
We just, we just

A simple gesture becomes a crime
I sleep with one eye open all the time
We made a peace but it's a cold, cold war
It's hard to love with one foot out the door

Cause I've been waiting up at night
And you've been keeping me inside
I thought you said let's be naive woah
I'm tired of tryna catch my lines
So baby look into my eyes
I'll put my faith in you
If you can put your faith in me

No one's asking for their freedom
We just need a little trust
Yeah it starts with good intentions
But the words are dangerous
I get crazy, you get jealous
But you know it's only us
No one's asking for their freedom
We just, we just need a little trust
Need a little trust
Need a little trust
No one's asking for their freedom
We just, we just

Oooh
Yeah de de de
Tru-u-u-ust
Tru-u-u-ust

No one's asking for their freedom
We just need a little trust
Yeah it starts with good intentions
But the words are dangerous
I get crazy, you get jealous
But you know it's only us
No one's asking for their freedom
We just, we just need a little trust
Need a little trust
Need a little trust
No one's asking for their freedom
We just, we just need a little trust
