

## Where You Are

Sam Tsui

What's the sky without the stars?  
What's a story without heart?  
What am I if I'm not standing where you are?

What's goodbye without a kiss?  
What's a penny without a wish?  
What's tonight if you're not here to spend it with?

And where's the light if there's no dark?  
Where's the flame if there's no spark?  
What am I if I'm not standing where you are?  
What am I if I'm not standing where you are?

What's a bird without a song?  
What's the day without the dawn?  
What's a road if you're not there to walk along?

What's the warmth without the cold?  
What's a tale that's never told?  
What is love if it's not us growing old?

Where's the light if there's no dark?  
Where's the flame if there's no spark?  
What am I if I'm not standing where you are?  
What am I if I'm not standing where you are?

Where's the light if there's no dark?  
Where's the flame if there's no spark?  
What am I if I'm not standing where you are?  
What am I if I'm not standing where you are?

What am I if I'm not standing where you are?
