

Wildfire

Sam Tsui

I was dry, broken down
Could barely feel my heart
Just lying in the dark

Lightning bolt to the ground
You made an ember glow
It only took a spark

Now it feels
Like my walls are melting down
Like a force of nature now
Like my walls are melting down

It's burning out of control
Love like I've never known
Lighting us up tonight
Woah.. ah.. ah..

So let's get lost in the flames
Just got our hearts to blame
You touch me I ignite

Like a wildfire
Like a wildfire
Woah.. ah.. ah..
It's burning out of control

Like a wildfire
Like a wildfire
Woah.. ah.. ah..
You're burning up my soul

Steady hands, level head
It all abandons me
I only feel your heat

White hot, burning red
Who knew that letting go
Would make me so complete

Now it feels
Like my walls are melting down
Like a force of nature now
Like my walls are melting down

It's burning out of control
Love like I've never known
Lighting us up tonight
Woah.. ah.. ah..

So let's get lost in the flames
Just got our hearts to blame
You touch me I ignite

Like a wildfire
Like a wildfire
Woah.. ah.. ah..

It's burning out of control

Like a wildfire

Like a wildfire

Woah.. ah.. ah..

You're burning up my soul

Somehow you're burning away my doubt (woah)

And now I'm yours 'til the flames are out (woah)

I'm powerless in the blazing light

Only you can prevent the fire we're starting tonight

It's burning out of control

Love like I've never known

Lighting us up tonight

Woah.. ah.. ah..

So let's get lost in the flames

Just got our hearts to blame

You touch me I ignite

Like a wildfire

Like a wildfire

Woah.. ah.. ah..

It's burning out of control

Like a wildfire

Like a wildfire

Woah.. ah.. ah..

You're burning up my soul

Like a wildfire

Like a wildfire

You're burning up my soul
