Samael

Fuck, Fuck, Fuck...

Hey!

Hi hey!

[voices]

Here we go again, here we go again

[voices]

O Fortuna, stay around me

Be my lover eternally

O Gloria, in ecstasy

As my hands read your body

O Maria, honestly

Would you betray your family for me

We'll be one with everything

I'll make sure you get there

Before I come, before I join

And we grab the stars, capture the universe

Hey, hey, mph, mph, ha, ha

Hey, hey, mph, mph, ha, ha

All different but yet so the same

It's always new, it's always fresh

You nail me down, I take the blame

For god my soul, for you my flesh

We'll be one with everything

I'll make sure you get there

Before I come, before I join

And we grab the stars, capture the universe
