

Blame It On The Moon

Samantha Fish

Full moon fever, all my fears of growing old
Can't justify my bad decisions anymore
I look in your eyes, I see life creeping by
I'm haunted by you, and I can't sleep at night

I'll blame it on the moon, if I can't act right
I'll blame it on the moon, if I'm not by your side

I'm riding the fence, I'm walking a real hard line
I'm afraid I'll fall in the fire sometime
There's no going back, there's no going home
One of these days we'll be out here all on our own

Blame it on the moon, if I can't act right

I'll blame it on the moon, if I'm not by your side

This river runs deeper, should we swim or carry on?
If freedom is just around the corner
Why are we doing this all wrong, yeah?

I'll blame it on the moon, if I can't act right
I'll blame it on the moon, if I'm not by your side
I'll blame it on the moon, yeah
These fools, they acting so crazy tonight
I'll blame it on the moon, oh, yeah
No, I know
Ooh, yeah, ooh, yeah-e-yeah-e-yeah-e-yeah
