

Dirty

Samantha Fish

Alone in a hotel room, your footsteps fade away
My love and misery couldn't make you stay
A light shining' thru my window illuminates you're gone
Shadows I been running from hurt more than I let on

How can you sleep at night, by her side when I'm on your mind?
How can you wash away the mess you made of me?

Your love is dirty
Taint my heart you made me feel unworthy
Pollute my mind with lies, baby it hurts me
Obscene the way your love it has no mercy
Your love is dirty

I was clean as a whistle babe, til you came inside

Throwing dirt on my name like a cruel pesticide
Well I stayed and I prayed and I laid there so holy in your arms
But you took the fruit that I bear and left me in the dark

How can you walk away, unashamed, your careless ways?
How can you take the best, and leave the rest of me?

Your love is dirty
Taint my heart you made me feel unworthy
Pollute my mind with lies, baby it hurts me
Obscene the way your love it has no mercy
Your love is dirty
