

Hypnotic

Samantha Fish

Cast a spell, that binds you
Can't wish you well, untie you
Behind your eyes, I'll find you
Within your mind, inside you, inside you

I get under your skin, and haunt you from within
Your body's giving in, I got that hypnotic
Siren from the deep, I bring you to your knees
Your soul is mine to keep
I got that hypnotic

You take the reigns, you lose control
You lead the way, divide you
I want it too, but you want it more
I build you up design you, design you

I get under your skin, and haunt you from within
Your body's giving in, I got that hypnotic
Siren from the deep, I bring you to your knees
Your soul is mine to keep
I got that hypnotic

Cast a spell, that binds you
Can't wish you well, untie you
Behind your eyes, I'll find you
Within your mind, inside you, inside you

I get under your skin, and haunt you from within
Your body's giving in, I got that hypnotic
Siren from the deep, I bring you to your knees
Your soul is mine to keep
I got that hypnotic
